

MTH 0203 : ESSENTIALS OF MATH

This course is designed to allow a student score a 12-16 on the ACT Math sub-score or an equivalent score on an approved placement examination, to go through the math remediation sequence in one semester. Students scoring lower than a 12 will be referred to Adult Education. This course will teach the topics, concepts, and mechanics from the required math remediation, to enable a student to be successful in College Algebra. A student that successfully completes this course with a "B" or higher, may take MTH-1023 College Algebra. A student making a "C" in this course may take College Algebra, with MTH-0011 Math Skills.
